Date: 7th December 2021

To
The Principal,
Ramanand Arya D.A.V. College,
Station Road, CGS Colony,
Bhandup East, Mumbai - 400042

Dear Madam/Sir,

SUB: MOU for Association with Ramanand Arya D.A.V. College

With reference to your letter dated 17th January 2019 wherein you have invited us to have a meaningful cooperation with your educational institution, for the overall development of your students, we are pleased to inform you that we are ready to assist them in furthering their knowledge about the functioning of our organization.

We will be pleased to have a linkage with your institution on the basis of the following mutually accepted understanding.

We will permit a pre-determined number of students to visit our office and other branches without in any way affecting our functioning or the rules and regulations in force from time to time, at a frequency which will be decided by the respective authorized officials of our organization.

The students and the accompanying faculty members will respect our organizational culture and principles and shall not in any way cause any disruption in our activities.

The students should adhere to all the safety regulations in force in our plant during their visit. They should take utmost care while visiting the production area and should not go near the machines or other equipment. The company will not be responsible or liable for any injury or loss caused to the students and faculty members as a result of violation of this instruction.

The necessary confidentiality of our operations will be maintained by the students and faculty members during their presence.

We will strive to share with the students the practical knowledge about the various functions performed in our organization and also encourage them to gain hands-on-experience, to the extent possible, without jeopardizing the efficiency or confidentiality of our operations and the smooth functioning of our different activities at the work place.

We will also provide the college management regular feedback and documentary acknowledgement about the visit of your students to our organization. We believe that such documentation will be helpful to both the students and your institution as

a proof of the knowledge gained by the students and the success of this linkage between both our organizations.

We would also try to depute some of our officials to your institution on a regular basis as per the schedule convenient to both of us, to make domain/subject specific presentations for the benefit of your students and faculty members.

We are happy to be associated with your institution and look forward to many years of mutual co-operation to improve the levels of both knowledge and skills of your students. We also feel that this initiative would also satisfy our desire to fulfill our corporate social responsibility in a really meaningful manner.

Thanking you,

Regards,
